

# OSOMS

## 2025 ANNUAL MEETING

COLUMBUS, OHIO

APRIL  
5 & 6

OSOMS Scientific Update • Staff Session  
OBEAM Sessions • OMSNIC Liability Course

With Joint Providership from the American Association of Oral and Maxillofacial Surgeons

# OMS ANNUAL SCIENTIFIC MEETING

## PRESENTERS

Jeffrey James, MD, DDS, MBA, FACS, FAACS

Steve C. Yun, MD

## MEETING CHAIR

Aaron Brinster, DDS, MD

This course will provide up to 6.0 hours of CDE/CME credits.

## SCHEDULE

Saturday, April 5, 2025	
8:00 - 10:00 AM	Pediatric Sedation: Physiology, Pharmacology, Pearls and Pitfalls <b>Steve C. Yun, MD</b>
10:00 - 10:30 AM	<b>BREAK</b>
10:30 AM - 12:30 PM	An Analysis of Malpractice Claims and Adverse Events in Oral Surgery Sedation <b>Steve C. Yun, MD</b>
12:30 - 2:00 PM	<b>LUNCH</b>
2:15 - 4:15 PM	Incorporating DEXmedetomidine into the Office-Based Anesthesia Model Provided by the Oral and Maxillofacial Surgeon <b>Jeffrey James, MD, DDS, MBA, FACS, FAACS</b>

## HOTEL & MEETING INFORMATION

### Hilton at Polaris

8700 Lyra Drive  
Columbus, 43240

OSOMS Room Rate \$189.00 applicable for Friday, April 5 and Saturday, April 6 only. Deadline for block rate is March 5. Special rate honored until room block capacity is filled or March 5, 2025 (whichever occurs first).

Call (614) 885-1600 for reservations and reference Ohio Oral Surgeons Annual Meeting to receive the group rate or reserve online via link on our website

## CONTINUING EDUCATION CREDITS

This continuing education activity has been planned and implemented in accordance with Standards of the ADA Continuing Education Recognition Program (ADA CERP) through the joint efforts between the American Association of Oral and Maxillofacial Surgeons and the Ohio Society of Oral and Maxillofacial Surgeons.

American Association of Oral and Maxillofacial Surgeons is an ADA CERP Recognized Provider. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry.

American Association of Oral and Maxillofacial Surgeons designates this activity for 6.0 hours continuing education credits.

AGD - Accepted Program Provider • FAGD/MAGD Credit • 11/1/22 - 12/31/26 • Provider ID# 214680

This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of the American Association of Oral and Maxillofacial Surgeons and the Ohio Society of Oral and Maxillofacial Surgeons. The AAOMS is accredited by the ACCME to provide continuing medical education for physicians.

The American Association of Oral and Maxillofacial Surgeons designates this live activity for a maximum of 6.0 AMA PRA Category 1 Credit(s)<sup>™</sup>. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

The OSOMS is approved as a permanent sponsor for educational activity certified as Category I of Continuing Education as designated by the Ohio State Dental Board.

# OMS SESSIONS

Saturday, April 5

8:00 – 10:00 AM

## **Pediatric Sedation: Physiology, Pharmacology, Pearls and Pitfalls**

**Steve C. Yun, MD**

2 CDE/CME

Using real case examples and scenarios, this lecture will briefly review basic principles in pediatric anatomy, physiology and pharmacology that pertain to the sedation of young children and teens in oral surgery offices. There will be an extensive discussion of practical strategies to make the pediatric sedation experience safer and smoother for the surgeon, staff and patient. Finally, potential problems and pitfalls in pediatric sedation will be discussed, with an explanation of how to prevent and manage complications in pediatric sedation.

### **Objectives of program:**

1. Review the basic aspects of pediatric airway anatomy, physiology and pharmacology for oral surgeons.
2. Demonstrate simple, practical strategies to improve the efficiency, efficacy and safety of pediatric sedation in oral surgery offices.
3. Discuss common problems and complications in pediatric sedation (e.g. emergence agitation) and their management
4. Identify practical strategies to avoid complications in pediatric sedation.

---

10:30 AM – 12:30 PM

## **An Analysis of Malpractice Claims and Adverse Events in Oral Surgery Sedation**

**Steve C. Yun, MD**

2 CDE/CME

Using his experience for the last 28 years as an expert witness and legal consultant, the speaker Dr. Yun will discuss the actual data from real-life adverse events and provide a unique root cause analysis of oral surgery sedation complications. The cognitive errors and logical fallacies underlying these complications will be dissected and analyzed in detail, as well as simple but powerful strategies to help the practitioner avoid similar complications in his/her own practice.

### **Objectives of program:**

1. Identify the common risk factors and potentially dangerous techniques that can result in oral surgery sedation complications.
2. Discuss the cognitive biases that can lead to complications and errors in patient management.
3. Demonstrate powerful de-biasing strategies and techniques to prevent sedation errors and improve patient safety in oral surgery offices.

2:15 – 4:15 PM

## **Incorporating DEXmedetomidine into the Office-Based Anesthesia Model Provided by the Oral and Maxillofacial Surgeon**

**Jeffrey James, MD, DDS, MBA, FACS, FAACS**

2 CDE/CME

This lecture delves into the strategic incorporation of DEXmedetomidine within the framework of office-based anesthesia, aligning with the guidelines set forth by the American Association of Oral and Maxillofacial Surgeons (AAOMS). The session commences with a meticulous review of the essential parameters of care defined by AAOMS, emphasizing the significance of adherence to these standards in the context of office-based anesthesia.

Moving forward, the lecture transitions to a detailed examination of DEXmedetomidine, shedding light on its mechanism of action, wide-ranging indications, and the nuances associated with optimal dosing protocols. Attendees will not only acquire a profound understanding of the pharmacological aspects but will also gain practical insights into the nuanced application of DEXmedetomidine in the specific context of office-based Oral and Maxillofacial Surgery anesthesia.

The lecture is designed to bridge theoretical knowledge with actionable takeaways, offering attendees a robust foundation for implementing DEXmedetomidine into their anesthesia practices. Through real-world scenarios and cases, the presenter will provide practical guidance, enabling participants to navigate the challenges and capitalize on the benefits associated with DEXmedetomidine utilization in the evolving landscape of office-based OMFS anesthesia. Overall, this session aims to equip practitioners with the knowledge and skills necessary to enhance patient care and optimize outcomes within the dynamic field of oral and maxillofacial surgery anesthesia.

### **Objectives of program:**

1. Describe the AAOMS Standards for Office-Based Anesthesia
2. Explore the Pharmacology and Clinical Applications of DEXmedetomidine
3. Apply DEXmedetomidine in Real-World OMFS Anesthesia Scenarios

## SPEAKERS

### Jeffrey Nelson James, MD, DDS, MBA, FACS, FACCS

Dr. James is the Peltier Endowed Chairman and Head of the Oral and Maxillofacial Surgery Department at LSU Health Science Center in New Orleans, with over 10 years of private practice and academic experience. A Texas native, he earned a Chemistry degree from Texas A&M, a DDS from the University of Texas, an MD from LSU, where he completed a residency in Oral and Maxillofacial Surgery, and an MBA from The Hull College of Business at Augusta University. He further specialized with a fellowship in Cleft and

Craniofacial Surgery from the University of Oklahoma and advanced training in facial cosmetic surgery. Before joining LSU, Dr. James held various academic roles, including Director of Oral and Maxillofacial Surgery at the Medical and Dental College of Georgia. He is dual board-certified in Oral and Maxillofacial Surgery and Facial Cosmetic Surgery and serves as a Board Examiner for the American Board of Facial Cosmetic Surgery. A fellow of multiple surgical associations, Dr. James also served as a staff surgeon in the U.S. Air Force Reserves. Dr. James enjoys outside work, traveling, camping, hunting, and spending time with his family.

Dr. James has no financial interests to disclose

### Steve C. Yun, MD

Dr. Yun is a board-certified anesthesiologist who specializes in dental office anesthesia. He obtained his M.D. with honors from the University of Southern California and completed his post-graduate training at the UCLA Center for Health Sciences. He is a Clinical Professor at the Western University of Health Sciences, and an Expert Consultant and Examiner for the Dental Board of California. He is also a Safety Inspector for the American Association for the Accreditation of Ambulatory Surgical Facilities (AAAASF).

He is a Medical Advisory Board member for Healthfirst, the leading provider of emergency medical supplies for dental offices in North America, and a medical consultant for DOCS Education. He is also Co-Course Director for Boston Children's Hospital's annual conference, Pediatric Sedation Outside the O.R.

He has extensive clinical research experience and as a popular speaker, gives numerous lectures across the country and internationally on patient safety issues.

Follow his professional activities and insights on Facebook, Instagram, and LinkedIn (@drsteveyun)

Dr. Yun has no financial interests to disclose

## OBEAM SESSION Sunday, April 6

### Office-Based Emergency Airway Management (OBEAM)

In recent years, advanced technology has made it possible to train surgeons and staff by simulating a full range of real-life emergency airway situations.

The AAOMS National Simulation Program allows participants to practice and master critical techniques for administering and monitoring office-based anesthesia. Unlike previous anesthesia emergency simulation courses, this program is standardized to assure every participant experiences the same simulated events. Its state-of-the-art technology enables AAOMS to automatically evaluate the performance of every participant and pinpoint those areas that may benefit from additional training. In short, this new three-part program offers oral and maxillofacial surgeons and their staff an effective method of assessing

their readiness to meet an office anesthesia emergency situation.

**OSOMS is offering this course, in partnership with AAOMS, during our annual meeting. Registration for the OSOMS Annual Meeting IS required in order to register for the OBEAM course.**

**Cost to attend OBEAM is \$900**

\*Sessions are limited to 10. Please check OSOMS website for current availability.

**CE: 6.0 hours**

**Session Times:**

**Sunday, April 6, 2025**

8:00 - 10:00AM

10:30 AM - 12:30PM

1:00 - 3:00PM

3:30 - 5:30PM

### 2025 OBEAM Continuing Education Provider Approval

The American Association of Oral and Maxillofacial Surgeons is an ADA CERP Recognized Provider.

ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry.

The American Association of Oral and Maxillofacial Surgeons designates this activity for 6.0 continuing education credits.

AGD - Accepted Program Provider  
FAGD/MAGD Credit  
11/1/22-12/31/26  
Provider ID# 214680

The American Association of Oral and Maxillofacial Surgeons (AAOMS) is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians. The American Association of Oral and Maxillofacial Surgeons designates this live activity for a maximum of 6.0 *AMA PRA Category 1 Credit(s)*<sup>™</sup>. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

# OMSNIC SESSION

Sunday, April 6 | 10:00AM - 1:00PM

Patient Safety and Risk Management Education

## Defending the Specialty: Collaborative Patient Safety Principles

### Course Description:

Through an analysis of closed OMSNIC medical professional liability claims, this course will provide strategies and resources to reduce risk in the oral and maxillofacial surgery practice and improve defensibility in oral surgery related professional liability claims. Closed claim topics will include alveolar surgery, implants, failure to diagnose and those procedures involving advanced anesthesia. Risk management topics include documentation, communication, informed consent, and patient selection. There are no prerequisites.

### Course Objectives:

- Identify common medical professional liability risks specific to oral and maxillofacial surgeons.
- Formulate policies and procedures to assist in improving patient safety and the defensibility of a potential claim.
- Relate communication and documentation strategies to support patient safety.
- Discuss current and emerging trends related to risk management in the oral and maxillofacial surgery specialty.

**3 CE credits will be awarded.**  
**Policyholders will earn a 5% premium credit for the next three policy periods.**

**Cost to attend: \$30**

**ADA C-E-R-P**® | Continuing Education  
Recognition Program

This continuing education activity has been planned and implemented in accordance with the standards of the ADA Continuing Education Recognition Program (ADA CERP) through joint efforts between OMSNIC and the Ohio Society of OMS.

OMS National Insurance Company, RRG (OMSNIC) is an ADA CERP Recognized Provider. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education.

ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry. OMSNIC designates this activity for three (3) continuing education credits.

Concerns or complaints about a CE provider may be directed to the provider or to the Commission for Continuing Education Provider Recognition at [ADA.org/CERP](http://ADA.org/CERP).

# OMS STAFF SESSION

Saturday, April 5 | 8:00AM - 12:30PM (10:00 - 10:30AM Break)

## Be Prepared for the Unexpected: Management of Medical Emergencies in the Dental Office

**Donald P. Lewis, Jr., DDS, CFE**

No CE for this session

As patient populations in our private practices continue to constantly change, we as practitioners and staff are obligated to provide a safe environment each day!

With advances in medicine being made, coupled with longer appointments and the increased usage of medications, these can combine to lead to a medical emergency.

Both the psychological and physiologic interaction within the patient can lead to life-threatening situations that need to be prevented, recognized, diagnosed and treated in an efficient and timely manner.

All members of the office staff need to be aware of these potential problems and take part in the management of the emergency.

This lecture will organize and present various medical emergencies that will most likely be encountered in the office.

### Learning Objectives:

1. Discuss the preparation and preventative measures for medical emergencies in the OMS office
2. Have knowledge of emergency equipment and medications
3. Understand the Detection and treatment of:
  - a. The unconscious patient: syncope. Hypoglycemia, cardiopulmonary arrest
  - b. Respiratory emergencies: Airway obstruction, laryngospasm, hyperventilation syndrome, asthma, bronchospasm
  - c. Cardiac emergencies: angina and myocardial infarction
  - d. Allergic reactions - Anaphylaxis
  - e. Altered Sensations - Seizure disorders
  - f. Other Emergencies
    - Hypertension / Stroke / Hypotension
    - Emesis and Aspiration
    - Local Anesthetic Toxicity
    - Epinephrine Toxicity

This lecture will focus on these topics from a general consideration, prevention, recognition, differential diagnosis and treatment aspect. The seminar attendee will be aware of these potential emergencies and will develop a workable treatment plan to be implemented into their practices to "Be Prepared for the UNEXPECTED!"

Donald P. Lewis Jr. DDS,CFE is the lead author of the AAOMS program: Advanced Protocols for Medical Emergencies in the Oral and Maxillofacial Surgery Office.
